## COREQUISITE APPROVAL

The student should submit this completed form to the Registrar's Office. This form is a request for approval of concurrent registration of two courses both offered at SF AI where one course is a prerequisite to the other. The approval is unique to the individual student submitting this request and must be considered and approved for the course and simultaneous prerequisite registration by the appropriate Bachelor of Arts (BA) or Bachelor of Fine Arts (BFA) Program Chair specific to the course. In this corequisite approval case, the student cannot request approval for a course for which they have not completed more than one of the prerequisites. Approval does not guarantee an open space in either course.
